COURSEWORK

Prompt Engineering
Python DSA
Linux certification
Data Analytics

SKILLS

PROGRAMMING

Python • prompt Engineering • java •
perl • NumPy
php • Linux • MySQL • pandas
Github • MongoDB • Postman • JIRA
• Tableau • Data Visualization
Familiar:
jenkins • Vsql • Springboot

PERSONAL

PROJECT

BOOKSTORE

Java • Springboot • MySQL •
Git • Postman • Microservices
• REST API

LOYALTYCS BUSINESS STUDY

MySQL • Tableau • Microsoft Excel
• Data Visualization

EXPERIENCE (2 YEARS)

NETCORE CLOUD | SOFTWARE ENGINEER

Feb 2021 - Present | Mumbai, Maharashtra

- Merchandising Trigger Project - Drove a 50% surge in identifying and personalizing discounted e-commerce products, boosting customer engagement and increasing conversions by 35
- Enhanced the user experience, resulting in a rise in customer satisfaction and loyalty through product refinement.
- Spearheaded the introduction of a dynamic "Email Pre Header" feature, revolutionizing email communication and enhancing customer interaction.
- Streamlined email content by strategically positioning the pre-header after the subject line, resulting in a substantial 30% increase in user engagement and an exceptional improvement in the overall user experience.

BRIDGELABZ | SOFTWARE ENGINEERING INTERN

Aug 2020 - Feb 2021 | Mumbai, Maharashtra

- Demonstrated strong leadership and collaboration skills by leading a high-performing team in the development of the "Bookstore" application using Java. Utilized MySQL for efficient data management, ensuring seamless database operation
- Spearheaded the implementation of microservices in the "FundooNotes" project, replicating the architecture of Google Notes.
- Designed a streamlined, modular system for optimal efficiency and scalability, ensuring seamless communication between microservices. This achievement underscores my prowess in architecting and deploying cutting-edge solutions for complex projects

ACHIEVEMENT

TECHNOVATION HACKTHON | NETCORE CLOUD RUNNER-UP

Demonstrated unwavering commitment and technical excellence by actively coding for an intense 36 hours straight during the Netcore Cloud company hackathon. Collaborated effectively with the team, gaining invaluable experience and insights from peers.

CENTAURUS 2.0 | SOLAR VEHICLE HAMPSHIP WINNER

Ambala, Haryana

Achieved a remarkable victory in the Solar Vehicle Championship in Haryana, showcasing exceptional teamwork and engineering skills. Demonstrated adaptability and effective communication while collaborating with diverse teams, highlighting the ability to thrive in challenging, competitive scenarios and build productive relationships with diverse individuals and environments.

AWARDS

2018 District Chess Championship A. nagar
2023 Winner in Netcore Chess League
2016 Runner up Paper presentation
